

COVID-19 & the Flu Simultaneous Epidemic Advisory

This Winter, in addition to making a diligent effort
to take **basic infection countermeasures...**

- ☑ Consider **getting vaccinated (for COVID-19 & the flu)** at an early stage.
- ☑ Have **food, an antigen qualitative test kit, fever/symptom-reducing medicine, etc.** on hand.
- ☑ **Confirm the contact information of a nearby medical institution** ahead of time in case you don't feel well.
